

Maria DeYoreo

RAND Corporation
1776 Main Street, Santa Monica, CA, 90407, USA
E-mail: mdeyoreo@rand.org
Phone: (310) 393-0411 x6656

EDUCATION

Ph. D., Statistics and Applied Mathematics, September 2014
University of California, Santa Cruz
Dissertation: “A Bayesian Framework for Fully Nonparametric Ordinal Regression.”

M.S., Statistics and Applied Mathematics, September 2011
University of California, Santa Cruz

B.S., Mathematical Sciences, High Honors, June 2009
University of California, Santa Barbara
College of Letters and Sciences

PROFESSIONAL EXPERIENCE

Statistician, RAND Corporation, June 2019 – present

Associate Statistician, RAND Corporation, July 2017 – June 2019

Postdoctoral Researcher, Duke University, September 2014 – June 2017

Biostatistics Intern, Amgen, Thousand Oaks, CA, June 2012 – September 2012

Graduate Student Researcher, National Marine Fisheries Service, 2010–2011

Graduate Student Researcher, University of California, Santa Cruz, 2009–2014

AWARDS AND HONORS

Travel award for Advances in Neural Information Processing Systems (NIPS) “Practical Bayesian Nonparametrics” workshop, 2016

2016 Savage Award in Applied Methodology for outstanding Ph. D. dissertation in applied Bayesian methodology

Travel award for ISBA World Meeting, Sardinia, Italy, 2016

International Society for Bayesian Analysis Lifetime Members Junior Researcher Award, 2014

University of California Chancellor’s Dissertation Year Fellowship for academic year 2013-2014

NSF Travel Award for Workshop on Bayesian Nonparametrics, Veracruz, Mexico, 2011

JOURNAL PUBLICATIONS

1. DeYoreo, M., Lansdorp-Vogelaar, I., Knudsen, A., Kuntz, K., Zauber, A., Rutter, C. (In press). “Validation of Colorectal Cancer Models on Long-term

- Outcomes from a Randomized Controlled Trial.” *Medical Decision Making*.

**GRANT AND
CONTRACT
FUNDING**

Centers for Medicare and Medicaid Services. “Analysis Related to Medicare Advantage and Part D Contract Star Ratings.” Task Order No. GS-10F-0275P, 75FCMC19F0076, 9/15/19-9/14/22. Role: co-PD (PD: C. Damberg).

Centers for Medicare and Medicaid Services. “Analysis of Medicare Advantage and Part D Contract Star Ratings.” Task Order No. GS-10F-0275P, HHSM-500-2016-00079G, 9/1/16-9/14/19. Role: co-PD (PD: C. Damberg).

Agency for Healthcare Research Quality. “Understanding the Relationship Between Health Care Delivery Systems and PCOR Processes and Outcomes.” U19HS024067, 9/1/2015-8/31/2020. Role: Co-investigator (PIs: C. Damberg, S. Ridgely).

National Institutes of Health (NCI). “Comparative Modeling of Colorectal Cancer: Informing Health Policies and Prioritizing Future Research.” U01CA199335. 9/10/15-8/31/2020. Role: Co-investigator (PI: C. Rutter).

Gordon and Betty Moore Foundation. “Development of a Survey to Assess Care Experiences of the Seriously Ill.” Award 6902. 11/14/2017-1/29/2021. Role: Lead Statistician (PD: R. Anhang Price).

California Department of Healthcare Services. “Study Evaluations of the Global Payment Program.” Contract 17-94423. 11/1/2017-6/30/2019. Role: Lead Statistician (PD: K. Kahn).

Department of Health and Human Services. “Study of Distribution of Funds under SAMHSA Block Grants.” HHSP233201500038I. 3/16/2015-3/15/2020. Role: Lead Statistician (PDs: A. Burnham, J. Ashwood).

National Institutes of Health (NIMHD). “Impact of Over-the-Counter Emergency Contraception on Uptake, Pregnancy, and Births.” R21MD012341. 8/17/2018-3/31/2020. Role: Co-investigator (PIs: C. Bird, P. Rao).

University of California, Office of the President, Tobacco Related Disease Re-

search Program. “Text Messaging-Based Smoking Cessation Program for Homeless Youth.” 27IP-0051. 4/1/2018-3/31/2020. Role: Co-investigator (PI: J. Tucker).

**EDITORIAL
SERVICE**

Associate Editor, *Annals of Applied Statistics*, 2018 – present

Editor, *International Society for Bayesian Analysis Bulletin*, 2018 – present

**REFEREEING
SERVICE**

Referee for: *Annals of Applied Statistics, Bayesian Analysis, Biostatistics, Econometrics and Statistics, Health Services and Outcomes Research, JASA, JRSS-A, Stat, Statistics and Computing, Statistics and its Interface, Statistical Methods in Medical Research*

National Science Foundation proposal reviewing

RAND SERVICE

Quality Assurance review of RAND reports, ongoing

Technical Mentor, Pardee RAND Graduate School Opioid Hackathon, 2018

Lead Statistical Consulting Service by addressing and triaging consulting requests

**OTHER
PROFESSIONAL
SERVICE**

Scientific Committee member for 2018 ISBA World Meeting

Finance Committee member, International Society for Bayesian Analysis, 2017

Section on Bayesian Statistical Science student paper competition judge, 2017

DataFest competition judge and consultant, Duke University, 2015 and 2017

Session organizer and chair for session “Modeling, Analysis, and Inference from Surveys using Bayesian Methods” at ISBA and JSM, 2016

Graduate student representative, UCSC, academic year 2013-2014

**SELECT
PRESENTATIONS**

“Estimating treatment capacity and client counts for substance abuse treatment facilities,” presentation at AcademyHealth Annual Research Meeting, Washington, DC, June 2019.

“Impact of Health System Affiliation on Performance of Critical Access Hospitals,” presentation at Joint Statistical Meetings (JSM), Vancouver, BC, August 2018.

“Microsimulation model calibration using incremental approximate Bayesian computation,” poster presentation at 31st Conference on Neural Information Processing Systems (NIPS), Long Beach CA, 2017.

“Dynamic Ordinal Regression Modeling,” invited presentations at Colorado State University, Department of Statistics; University of Minnesota, Department of Biostatistics, December 2016-January 2017.

“Dynamic Ordinal Regression Modeling and Data Fusion,” invited presentations at University of Michigan, Department of Statistics; McCoombs School of Business, IROM Department; Ohio State University, Department of Statistics, January 2017.

“Dynamic Ordinal Regression Modeling to Study Body Characteristics of Rockfish

in California,” invited presentations at University of California, Davis, Department of Statistics; The RAND Corporation, Santa Monica, CA, January 2017.

“Practical Bayesian Nonparametrics,” invited presentation at Bayesian Nonparametrics workshop at Neural Information Processing Systems, Barcelona, Spain, December 2016.

“Nonparametric Bayesian Models for Mixed Data,” invited presentation at AISC Conference, University of North Carolina at Greensboro, September 2016.

“Bayesian Nonparametric Dynamic Ordinal Regression Modeling,” invited presentation at Savage Award finalists session, ISBA World Meetings, Sardinia, Italy, June 2016.

“Combining Data from Multiple Sources,” invited presentation at Joint Statistical Meetings, Chicago, IL, August 2016.

“Modeling for Dynamic Ordinal Regression Relationships to Study Maturity of Rockfish in California,” invited presentation at University of Washington, Department of Statistics, January, 2016.

“Incorporating Conditionally Representative Auxiliary Information in Data Fusion,” invited presentation at NSF National Census Research Network Virtual Seminar, October, 2015.

“Nonparametric Bayesian Models with Focused Clustering for Mixed Ordinal and Nominal Data,” invited presentation at topic-contributed oral presentation at Joint Statistical Meetings, Seattle, WA, August 2015.

“Fully Nonparametric Modeling for Multivariate Ordinal Regression,” invited presentation at j-ISBA session, Cancun, Mexico, July 2014.

TEACHING EXPERIENCE

Instructor, Duke University Spring 2016
Taught *Regression Analysis* to 60 undergraduate statistics and non-statistic majors. The semester-long course focused on data analysis using R.

Instructor, UCSC Summer 2013
Taught *Statistical methods for the biological, environmental, and health sciences* to 75 undergraduate science majors over a 5 week summer session.

Graduate Student Instructor, UCSC Spring 2013
Taught a computer-based laboratory course in statistical methods for the biological, environmental, and health sciences in which students use JMP to gain hands-on experience with data analysis.

Teaching Assistant, UCSC 2009-2013
TA for seven quarters, courses include introductory statistics, calculus for economics, classical and Bayesian inference (mixed undergraduate and graduate), introduction to probability theory, and biostatistics.
