EDUCATION

University of Illinois at Urbana-Champaign, School of Labor and Employment Relations

Ph.D. in Human Resources and Industrial Relations, 2007

Specialization: Labor & Personnel Economics

Masters in Human Resources and Industrial Relations, 2004

University of Texas at Dallas

Bachelor of Science in Business Administration, 2001, *Summa Cum Laude*

AREAS OF SPECIALIZATION

Health Economics, Labor & Workplace Economics, Economics of Prevention, Economics of Aging, Child and Maternal Health, Policy Evaluation, and Health Services Research

RESEARCH EXPERIENCE

Economist RAND Corporation	April 2014 – present Arlington, VA
Professor Pardee RAND Graduate School	2016 – present Santa Monica, CA
Associate US Health Division, Abt Associates	2013 – 2014 Bethesda, MD
Economist, Lead Research Data Center Administrator Center for Economic Studies, US Census Bureau	2012 – 2013 Suitland, MD
Postdoctoral Fellow in Health Services Research & Health Economics Center for Chronic Disease Outcomes Research, VA Medical Center & Department of Medicine, University of Minnesota	2011 – 2012 Minneapolis, MN
Assistant Research Scientist Institute for Social Research, University of Michigan	2007 – 2010 Ann Arbor, MI
Visiting Scholar Institute for Quantitative Social Science, Harvard University	Spring 2005 Cambridge, MA

TEACHING and STUDENT ADVISING

- Professor** 2016 – present
Pardee RAND Graduate School, Santa Monica, CA
Doctoral students advised/on projects: Jacob Hlavka, Mark Barrett, John Caloyeras
- Mentor** 2009 – 2010
Undergraduate Research Opportunity Program, University of Michigan, Ann Arbor, MI
Health Economics (undergraduate)
- Visiting Instructor** 2006 – 2007
Department of Economics and Management Studies, St. Olaf College, Northfield, MN
Economics of Human Resources, Principles of Economics (undergraduate)
- Visiting Instructor** Spring 2005
Department of Economics, Wesleyan University, Middletown, CT
Economics of Organizations and Negotiations (undergraduate)
- Teaching Assistant** Fall 2003
School of Labor and Employment Relations, University of Illinois, Champaign, IL
Statistics (graduate)
- Teaching Assistant** 2001 – 2002
Department of Economics, University of Illinois, Champaign, IL
Principles of Macroeconomics (undergraduate)

School-Based Preventive Services to Reduce Disparities: Examining the Role of State Policies

Schools are a convenient setting that may improve healthcare access for children in low-income and racial/ethnic minority populations who have historically had low rates of recommended health services. To identify factors promoting delivery of school-based health services to increase access to care and reduce disparities, this study will document state policies affecting the delivery of these services and use Medicaid claims data to examine the types of health services delivered in schools and determine how state policies may affect delivery of services. Reviewed June 2018. Impact Score: 27 (10th %).

Current Research Support

Dept. of Industrial Relations, State of California **Kapinos & Mulcahy** (PIs) 02/16-12/31/19
Access to Medical Treatment for Injured Workers

The study is a congressionally mandated 3-year study on access to care for injured workers in the CA Workers Compensation system that included claims data analysis, a physician survey, network analysis, and complex linking of administrative datasets, across multiple sites.

Role: PI

1 R40MC294510100 Uscher-Pines (PI) 04/01/16-03/31/19

U.S. Department of Health and Human Services, Health Resources and Services Administration
Expanding Rural Access to Breastfeeding Support via Telehealth: Tele-MILC Trial

The aim of this project is to conduct a randomized controlled trial (RCT) to assess the feasibility, acceptability, and impact of a novel breastfeeding support intervention (“telelactation”), delivered via videoconferencing on personal devices including mobile phones and tablets. Dr. Kapinos is advising on the RCT implementation, leading the statistical analyses and contributing to manuscripts.

Role: Co-I

California Healthcare Foundation Uscher-Pines(PI) 04/2018 – 04/2020

Evaluation of the Developing Sustainable Models of Telehealth in the Safety Net

The goal of this mixed methods evaluation is to assess and document the impact of CHCF's investment in expanding telehealth capacity within community health centers and to identify lessons learned that would inform future efforts to expand sustainable models of telehealth in the safety net. Dr. Kapinos will lead quantitative analyses, contribute to report writing, and consult on survey methodology.

Role: Co-I

Selected Completed Research Support (last 5 years)

ASPE/HHS Gidengil & **Kapinos** (PIs) 08/01/17-04/15/17

Addressing Childhood Obesity Among Medicaid Enrollees

This project conducted an environmental scan of provider-level interventions to treat and prevent childhood obesity among Medicaid children. A set of research questions and list of experts are being developed in preparation for convening a technical expert panel. Dr. Kapinos co-convened the TEP and led report writing based on findings from the meeting.

Role: Co-PI

Dept. of Industrial Relations, State of California Wynn/Mulcahy (PI) 02/01/12-12/31/18

Evaluation of SB 863 Medical Care Reforms

The study aims to evaluate the impacts of recent California legislative changes on injured worker access to appropriate medical care, the costs and quality, and outcomes of care. Dr. Kapinos led the quantitative evaluation on the effect of changes on medical costs and utilization using WC claims data and private payer claims data.

Role: Co-Investigator

Amgen **Kapinos & Fischer (PIs)** 02/2015 – 12/2017
Estimating the Burden of Osteoporosis-Related Fractures and Costs Associated with High Risk Fracture

This study used the Health and Retirement Study data linked to CMS Medicare claims data to examine the effects of osteoporosis-related fracture on disability, functional limitations and health, and medical costs.

HHS **Kapinos (PI)** 09/30/16-09/29/17
Sustainability of the U.S. Cord Blood Industry

This mixed methods study (1) described the existing public CBB system, (2) assessed current trends and economic relationships from the perspective of key stakeholders in the public CBB system, and (3) provided recommendations to improve the economic sustainability of the public CBB system.

https://www.rand.org/pubs/research_reports/RR1898.html

HHS **Mulcahy & Kapinos (PIs)** 09/30/15-11/30/16
Sustainability of the U.S. Blood Supply

This project analyzed the sustainability of the U.S. blood supply by describing the market and analyzing approaches to valuing the availability of blood for routine medical use and preparedness, trends due to changes in the healthcare market, technology, and policy, and alternative models.

https://www.rand.org/pubs/research_reports/RR1575.html

Robert Wood Johnson Foundation **Chandra (PI)** 11/01/13-09/30/16
Planning Support to Develop Culture of Health Frameworks/Initial Models

The Robert Wood Johnson Foundation worked to develop an innovative and complex approach to develop, support, and inform an American culture of health, a culture premised on embedding health in all aspects of our social infrastructure from business and government to individuals and families. In this project, RAND worked to develop a culture of health model and framework, as well as measures for monitoring and evaluation. Dr. Kapinos led the development of measures, including cost of care in the last year of life and average out of pocket healthcare expenditures.

Role: Investigator

ASPE/HHS **White (PI)** 02/01/15-09/30/16
Developing the Analytic Capacity to Analyze the Performance and Effects of Accountable Care Organizations Relative to Other Payment Systems

This project aimed to analyze the impact of Accountable Care Organizations on health care markets broadly. Dr. Kapinos led analytics of Medicare claims data.

Role: Co-Investigator

R40MC283050100 **Kapinos (PI)** 4/1/15-3/31/16
U.S. Department of Health and Human Services, Health Resources and Services Administration
The Affordable Care Act, Lactation Support Services, and Breastfeeding
This study established causal evidence of the effect of the ACA's lactation support services mandate on breastfeeding behaviors.
https://www.rand.org/pubs/external_publications/EP66733.html

Mitre/VA **Farmer (PI)** 12/14 – 08/15
Veterans Access, Choice, and Accountability Act of 2014: Independent Assessments A
The RAND Corporation was tasked with an assessment of the current and projected demographics and health care needs of patients served by the Department of Veterans Affairs (VA). Dr. Kapinos led the analysis of the Medical Expenditures Panel Survey to describe the unique health needs of Veterans and project future needs.
https://www.rand.org/pubs/research_reports/RR1165z1.html
Role: Co-Investigator

CVS Caremark **Mattke (PI)** 07/14 – 03/15
Predicting and Managing Medication Non-adherence
An investigation of current approaches to modeling medication adherence, including recommendations for improved modeling. Dr. Kapinos contributed to modeling estimates and refinements.
Role: Co-Investigator

Department of Labor **Mattke (PI)** 06/14 – 08/14
Analysis of Existing Data on Wellness Programs
This study used data on workplace wellness program to explore patterns of wellness program availability, employers' use of incentives, and program participation and utilization among employees. Dr. Kapinos led the evaluation on medical care costs.
Role: Co- Investigator
https://www.rand.org/pubs/research_reports/RR724.html

CMS **Hassol (PI)** 09/13-04/14
Health Care Innovation Awards (HCIA) – Hospital Setting Interventions
Evaluation of 10 Center for Medicare and Medicaid Innovation (CMMI)-funded HCIA programs in hospital settings with the aim of delivering better health, improved care and lower costs to people enrolled in Medicare, Medicaid and the Children's Health Insurance Program (CHIP). Dr. Kapinos is leading the quantitative evaluation team (claims and survey data analysis).
Role: Co-Investigator

CMS **White (PI)** 02/13-04/14
Evaluation of CMMI Accountable Care Organization Initiatives
Evaluation of Pioneer Accountable Care Organizations and Medicare Shared Savings Program (MSSP) that launched in spring 2012. CMMI contracted L&M Policy Research, LLC, and its subcontractors, including Abt Associates to evaluate these programs through a mix-methods research approach. Dr. Kapinos' project tasks include the design and execution of the quantitative evaluations for CMMI, specifically working on the estimation of treatment effects on expenditures.
Role: Co-Investigator
