
TABLES

S.1. Use of Personal Pesticides by Form	xviii
S.2. Use of Personal Pesticides by Imputed Active Ingredient	xix
S.3. Use of Field Pesticides by Form	xx
S.4. Average Frequency of Use and Percentiles for Frequency of Use Among Those Who Took PB Pills	xxiii
1.1. Pesticides Used or Potentially Used During ODS/DS	5
2.1. Survey Instrument Outline	10
2.2. Possible Pesticides Used in Different Types of Situations	12
2.3. Survey Response Rates	15
2.4. Sample and Population Demographics	16
3.1. Percentage of Gulf War Veterans Who Reported Seeing Each Type of Pest for the Total Population and by Service	21
3.2. Percentage of Gulf War Veterans Who Used Each Form of Personal Pesticide for the Total Population and by Service	22
3.3. Percentage of Gulf War Veterans Who Used or Observed the Use of Each Form of Field Pesticide for the Total Population and by Service	22
3.4. Tabulations for the Use of Personal Sprays by Self	23
3.5. Tabulations for the Use of Personal Liquids by Self	26
3.6. Tabulations for the Use of Personal Lotions by Self	27
3.7. Tabulations for the Use of Personal Powders by Self	28
3.8. Tabulations for the Use of Flea or Tick Collars by Self	29
3.9. Tabulations for the Use of Other Personal Products by Self	31

3.10. Tabulations for the Use of DEET by Self and Others	32
3.11. Tabulations for the Use of Permethrin for Personal Use by Self and Others	33
3.12. Tabulations for the Use of Sulfur (Benzocaine) for Personal Use by Self and Others	34
3.13. Tabulations for the Field Use of Aerosols by Self and Others	35
3.14. Tabulations for the Field Use of Other Sprays by Self and Others	36
3.15. Tabulations for the Field Use of Pellets, Crystals, and Granules by Self and Others	38
3.16. Tabulations for the Field Use of Powders by Self and Others	39
3.17. Tabulations for the Field Use of Liquids by Self and Others	40
3.18. Tabulations for the Use of No-Pest Strips by Self and Others	41
3.19. Tabulations for the Field Use of Other Pesticides by Self and Others	42
4.1. Where Service Members Stayed Most of the Time During the Survey Month	44
4.2. Where Service Members Worked Most of the Time During the Survey Month	44
4.3. Where Service Members Slept Most of the Time During the Survey Month	45
4.4. Type of Latrine Facilities Available to Service Members Who Reported Sleeping in a Building, Warehouse, or Tent	45
4.5. Where Service Members Ate Most of the Time During the Survey Month	46
4.6. Among Those Reporting “Some Other Place,” Where Service Members Ate Most of the Time During the Survey Month	47
4.7. Percentage Change from Baseline in the Odds of Use of Personal Pesticides by Form and Demographic Characteristics	48

4.8.	Percentage Change from Baseline in the Odds of Use of Field Pesticides by Form and Demographic Characteristics	49
4.9.	Percentage Change from Baseline in Average Use of Personal Pesticides by Form and Demographic Characteristics	50
4.10.	Percentage Change from Baseline in Average Use of Field Pesticides by Form and Demographic Characteristics	51
5.1.	Estimated Fraction of the In-Theater Gulf War Population Who Took PB Pills	61
5.2.	Average Frequency of Use and Percentiles for Frequency of Use Among Those Who Took PB Pills	62
5.3.	Daily Frequency of Use and Number of Days Used in the Month Surveyed Among Those Who Took Three or More PB Pills per Day	62
5.4.	Estimated Number in the Population Exceeding the Frequency per Month Both for Taking PB Pills and for Using Personal Pesticides	64
B.1.	Number of Personnel in the Sampling Frame by Service	76
B.2.	Marine Corps RUCs Identified as Being at Sea	80
B.3.	Air Force Location Codes Defined to Be in the Survey Area	81
B.4.	Food Service Military Occupational Specialties to Be Oversampled.	87
B.5.	Tabulations of the Sampling Frame by Service and Categories to Be Oversampled	88
B.6.	The Oversampling Scheme	90
B.7.	The Initial Sample Size Defined to Achieve 2,000 Complete Final Responses	92
B.8.	Navy Units That Were Classified as Ashore Units	93
C.1.	Rules for Mapping Personal-Use Pesticide Products to Active Ingredients	100
C.2.	Rules for Mapping Personal-Use Pesticide Products to Active Ingredients Given “Other” Names (Not Listed in the Survey)	100
C.3.	Rules for Mapping Unnamed Personal-Use Pesticide Products, by Color, Smell, and Use to Active Ingredients	101

C.4. Rules for Mapping Personal-Use Pesticide Products, Where “Other” Response Reflected That the Pesticide Was Military Issue (and It Did Not Otherwise Classify)	102
D.1. Correlates of Recall	112
D.2. Self-Reported Health Status	113
D.3. Coefficients from a Regression of Levels and Changes Between Surveys on Health Measures and Question Wording	114
D.4. Awareness of Gulf War Issues	115
D.5. Percentage Reporting Field Use of Pesticides Across Surveys	116
