
TABLES

2.1. EPA Pesticide Toxicity Classes	7
2.2. Carcinogenicity Classifications	11
2.3. Pesticides Used or Potentially Used During ODS/DS	13
3.1. Most Frequent Principal Diagnoses in PGW Registry Personnel, February 1997	16
3.2. Symptom Prevalence as Primary and Any Diagnosis	17
3.3. Symptom Prevalence in Subjects with a Primary Diagnosis of Good Health	17
3.4. Symptom Prevalence in Subjects Given a Diagnosis Other Than SSID	18
3.5. Symptom Prevalence in Subjects Diagnosed with SSID	18
3.6. Registry Participation Predictors	22
3.7. Odds Ratios for CDC-Defined PGW Illnesses in PGWV and Bosnia and Non-Deployed Gulf-Era Veterans	23
4.1. Chemical Identity of Lindane	26
4.2. Physical and Chemical Properties of Lindane	26
4.3. Formulations of Lindane Available During ODS/DS	27
4.4. Reports of Acute Lindane Toxicity in Humans Following Dermal Application	30
4.5. Reports of Acute Lindane Toxicity in Animals Following Oral Exposure	31
4.6. Reports of Acute Lindane Toxicity in Humans Following Oral Exposure	32

4.7. Reports of Chronic Lindane Toxicity in Animals Following Oral Exposure	34
4.8. Comparison of Exposures to Agricultural Chemicals Resulting in Risk of Non-Hodgkin's Lymphoma	36
5.1. Chemical Identity of DEET	39
5.2. Physical and Chemical Properties of DEET	40
5.3. Formulations of DEET Available During ODS/DS	40
5.4. Estimated Exposure to DEET During a Six-Month Mosquito Season	43
5.5. In Vivo and In Vitro Dermal Absorption of DEET	45
5.6. Reported Signs and Symptoms of DEET Toxicity	45
5.7. Reported Health Effects in Humans Following the Topical Application of DEET	47
6.1. Chemical Identity of Permethrin	54
6.2. Physical and Chemical Properties of Permethrin	54
6.3. Formulations of Permethrin Available During ODS/DS	55
6.4. Chemical Identity of <i>d</i> -Phenothrin	56
6.5. Physical and Chemical Properties of <i>d</i> -Phenothrin	56
6.6. Formulations of <i>d</i> -Phenothrin Available During ODS/DS	57
6.7. Acute Effects of Permethrin Reported in Animal Studies	60
6.8. Lethal Exposure Levels of Permethrin Reported in Animal Studies	60
6.9. Subacute and Chronic Effects of Permethrin in Humans	61
6.10. Subacute and Chronic Effects of Permethrin in Animals	63
6.11. Acute Effects of <i>d</i> -Phenothrin in Animals	67
6.12. Chronic Effects of <i>d</i> -Phenothrin in Animals	68
7.1. Chemical Identity of Azamethiphos	72
7.2. Physical and Chemical Properties of Azamethiphos	72
7.3. Chemical Identity of Chlorpyrifos	73
7.4. Physical and Chemical Properties of Chlorpyrifos	73
7.5. Formulations of Chlorpyrifos Available During ODS/DS	74

7.6. Air and Surface Chlorpyrifos Residues Following Residential Broadcast and Aerosol Applications	74
7.7. Chemical Identity of Diazinon	75
7.8. Physical and Chemical Properties of Diazinon	76
7.9. Formulations of Diazinon Available During ODS/DS	76
7.10. Chemical Identity of Dichlorvos	77
7.11. Physical and Chemical Properties of Dichlorvos	77
7.12. Formulations of Dichlorvos Available During ODS/DS	78
7.13. Chemical Identity of Malathion	79
7.14. Physical and Chemical Properties of Malathion	80
7.15. Formulations of Malathion Available During ODS/DS	80
7.16. Chemical Identity of Bendiocarb	82
7.17. Physical and Chemical Properties of Bendiocarb	82
7.18. Chemical Identity of Methomyl	84
7.19. Physical and Chemical Properties of Methomyl	84
7.20. Chemical Identity of Propoxur	85
7.21. Physical and Chemical Properties of Propoxur	86
7.22. Formulations of Propoxur Available During ODS/DS	86
7.23. Clinical Manifestations Following Acute Carbamate or OP Poisoning	90
7.24. Symptom Rates in Malathion-Exposed Subjects	93
7.25. Symptom Rates and Relative On-Season and Off-Season Risks for Indonesian Farmers Engaged in OP Pesticide Spraying	97
7.26. Factors Significantly Linked to Symptom Reporting in Indonesian Farmers Engaged in OP Spraying	98
7.27. Difference Between Peak- and Post-Season Test Score Ratios of Occupationally Exposed and Non-Exposed Israelis	98
A.1. Effects in AChE-Inhibitor-Exposed Subjects and Reported by Ill PGWV	134
