TABLES

S.1. Phases of NAS and RAND’s Program of Studies ........................................... xxiv
1.1. Phases of NAS .......................................................... 6
1.2. Phases of NAS and RAND’s Program of Studies .......................... 18
2.1. Comparison of Whole-School Design-Based Assistance with Traditional Means of School Reform .......................................................... 34
2.2. Original NAS Principles and Concepts .......................................... 36
4.2. Selected School Characteristics, by Design Team ...................... 73
5.1. Types of Data in RAND’s Classroom Study in San Antonio ........................................... 98
5.2. Percentage of Longitudinal Sample of NAS Teachers Who Reported Design Team Communication, Professional Development, and Support in Spring 1998 and Spring 1999 ........................................... 112
6.1. NAS Schools Making Gains Relative to Jurisdiction, by Jurisdiction and Design Team, Three Years into Scale-Up .......................................................... 131
A.1. RAND Sample for Site Visits ........................................... 172
A.2. Elements of Designs .................................................. 175
A.3. 1997 Target Sample for RAND’s Longitudinal Study of Schools: Principal Interviews and Teacher Surveys ........................................... 179
A.4. A Comparison of Respondents and Nonrespondents in the 1999 Longitudinal Sample, Based on 1998 Data .................................................. 184
A.5. Distribution of the 1999 Longitudinal Sample, by Jurisdiction and Design Team .................. 185
A.7. Survey Items Included in the Design Team–Specific Implementation Index, by Design Team ................. 192
A.8. Elementary Schools Adopting NAS Designs in San Antonio, by Year ........................................ 199
A.9. Target Sample of Schools Compared with Final Study Sample, by Type of Data Collection and NAS Design Team .................................................. 200
A.10. Target Sample of Teachers Compared with Final Study Sample, by Type of Data Collection and NAS Design Team .............................................. 201
