BIBLIOGRAPHY ON AUTOMATION AND TECHNOLOGICAL CHANGE  
AND STUDIES OF THE FUTURE

Annette Harrison\*

The RAND Corporation, Santa Monica, California

INTRODUCTION

This Paper comprises a list of works collected for two ongoing RAND projects: Automation and Technological Change, and a related informal study of future national and international problems.

The purpose of the bibliography is to make this information available to people interested in these areas. This list is by no means exhaustive; it consists solely of materials assembled to date by project members.
