

**Section B: Knowledge Late Stage Cases**

TIME THIS SECTION BEGINS RECORDED HERE

**TSST13B**

*VERSION B: LATE STAGE RESPONDENTS (CD4 < 200 OR AIDS DIAGNOSIS)*

Now I'd like to ask you about some health problems that people sometimes get. For each problem, I'd like to know what you would do about getting medical attention if you had this problem:

B1. First, suppose you developed a severe headache that gets worse over two weeks and stiffness in your neck. What would you do? (SHOW CARD #49) Would you:

**B13B01** **(Circle One)**

- Go to the emergency room, ..... 1
- Go to the doctor's office or speak to the doctor the same day, ..... 2
- Schedule a special appointment, ..... 3
- Wait until the next scheduled appointment, ..... 4
- Give it a chance to get better before seeing a doctor, or ..... 5
- Something else? ..... 6

B2. Suppose you experienced a change in your ability to see clearly and developed loss of visual field or blind spots. Would you:

**B13B02** **(Circle One)**

- Go to the emergency room, ..... 1
- Go to the doctor's office or speak to the doctor the same day, ..... 2
- Schedule a special appointment, ..... 3
- Wait until the next scheduled appointment, ..... 4
- Give it a chance to get better before seeing a doctor, or ..... 5
- Something else? ..... 6

B3. Suppose you began to have difficulty breathing and had a cough with fever. Would you:

**B13B03** **(Circle One)**

- Go to the emergency room, ..... 1
- Go to the doctor's office or speak to the doctor the same day, ..... 2
- Schedule a special appointment, ..... 3
- Wait until the next scheduled appointment, ..... 4
- Give it a chance to get better before seeing a doctor, or ..... 5
- Something else? ..... 6
